Dear Kevin,

We've completed erecting our new Pinnacle Tents and WE LOVE THEM as does everyone at the center. They are far superior to our previous tents in terms of interior room, quality of construction and the extra little details (larger windows, extra pocket inside, ... the list goes on).

Based on the quality and construction of these tents we expect them to give us the years of service you said they would. And, I have no doubt they will stand up to the variety of weather we experience here in Massachusetts.

Thank you so much for all your help through the process. Being a novice at bulk buying of tents I could not of made it through this without all your input and attention to my numerous questions. The quality of your assistance matches the quality of your tents.

We look forward to a long, continuing relationship with Pinnacle Tents.

With appreciation,

Richard J. McCabe
